2008 Winner Profile

Hartford Financial Services Group

PROJECT DESCRIPTION: The Hartford's Catastrophe Risk Management (CatRM) Program replaces an existing application for assessing terrorism risks of potential customers. Among its capabilities, the system integrates Geographical Information Systems data with other analysis tools in order to provide underwriters with a real-time assessment of the risks to specific locations. The development of CatRM has enabled the company to include an additional 65,000 locations (an increase of 2.5 percent) in its terrorism analysis.
